Summary

Senior Software Engineer with a strong background in Python and its frameworks, including Django, Flask, and FastAPI. Proficient in React.js and experienced in developing robust financial and e-commerce applications. Passionate about transforming innovative ideas into impactful solutions that benefit both individuals and businesses. Experienced in the fintech, Virtual Top-Up (VTU), and e-commerce industries.

Skills

- **Programming Languages:** Python, JavaScript
- **Frameworks:** Django, Flask, FastAPI, React.js
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Tools & Technologies:** Git, Docker, Kubernetes, AWS, CI/CD
- **Areas of Expertise:** Fintech, E-commerce, Virtual Top-Up (VTU)
- **Soft Skills:** Problem-solving, Team Leadership, Agile Methodologies, Continuous Learning

Professional Experience

Senior Software Engineer

CodeThrottle Ltd

2017 - Present

- Developed and maintained scalable backend systems using Django, Flask, and FastAPI.
- Led the design and implementation of RESTful APIs and microservices.
- Collaborated with front-end developers to integrate user-facing elements with server-side logic.
- Optimized application performance and ensured high availability and reliability.
- Mentored junior developers and conducted code reviews to maintain code quality.

Backend Developer

FirstDevLab

2021 - Present

- Contributed to the development of backend systems for various projects.
- Designed and implemented database schemas and optimized queries.
- Integrated third-party services and APIs to enhance application functionality.
- Participated in sprint planning, code reviews, and daily stand-ups.

- Ensured application security and data integrity through best practices.

Lead Backend Engineer

Zitch

2024 - Present

- Led the backend development team in designing and implementing new features.
- Architected scalable and maintainable backend solutions for complex applications.
- Coordinated with product managers and stakeholders to align technical solutions with business goals.
- Conducted performance tuning and optimized resource usage.
- Implemented CI/CD pipelines to streamline the development and deployment process.

Lead Developer

SheriffOs

2024 - Present

- Directed the development team in building innovative software solutions.
- Oversaw the entire software development lifecycle, from requirements gathering to deployment.
- Ensured adherence to coding standards and best practices.
- Facilitated technical discussions and decision-making processes.
- Implemented strategies to improve development efficiency and team collaboration.

Education

- **Bachelor of Science & Education** Adekunle Ajasin Univeristy ,Akungba Akoko, Ondo State 2016

Projects

- **Loan Application System:** Developed a comprehensive loan management system for a fintech company, integrating features such as loan application, approval, disbursement, and repayment tracking.
- **E-commerce Platform:** Built a scalable e-commerce platform with features like product listing, shopping cart, checkout, and payment integration using Django and React.js.
- **VTU Service Application:** Created a Virtual Top-Up service application to enable users to recharge their mobile phones and pay utility bills seamlessly.
- **Card Security system:** Developed a card security system suitable for use in schools, organizations
- **Smart Attendance:** Developed a smart attendance software for taking records and attendance of any organization

Certifications

- **Certified Django Developer**
- **AWS Certified Solutions Architect**
- **Certified Kubernetes Administrator (CKA)**

Professional Affiliations

- Member of the Python Software Foundation
- Contributor to open-source projects on GitHub
